## LIQUOR ELECTION WANTED

### Chas. Rubenstein of Samson Has Petition.

Mr. Charles Rubenstein of Samson is circulating a liquor petition in Coffee County to obtain signers to get the Probate Judge to order an election. Whether he wants to sell whiskey himself, or just naturally loves the good people of Coffee and wants to serve them, or whether he is paid to do his work we do not know. We only know he's out with the petition.

The middle of the week Mr. Rubenstein had, so we have heard over one hundred names on the petition It takes over six hundred to get the election ordered.

Now we had been looking for petition to be circulated, but we had not thought it would come in the hands of Mr Rubenstien. We thought it would come from some body in one of the County's towns who would want a bar room or dispensary for the profits to the towns and to themselves.

If Mr. Rubenstien wants to get an election ordered so he can get to sell whiskey, he had best look into the fact that the number of alloons allowed is limited, and an excise commission names the o nes to run them, and would likely pick out residents of the county. If he's doing it for the love of the county, we suggest to him that this county has been able to get along very well without help from outsiders, and that he can pitch in and help out Geneva County, or Russia, the places where he lives and whence he came, respectively. But if he's doing the work for the pay, alas, we hope he gets good pay and that he does not feel ashamed of his job.

So far as we know, Mr. Rubenstien has only worked in the country with his petition. Just why why he had rather tackle the country people we do not know. They are certainly as well informed as are the town people.

We would like very much to learn what Mr. Rubenstein tells the people. He may tell them things just like they are. We would just like to know.

We expect, in fairness to the people of the county, as soon as the petition is filed to publish a list of the names who have signed the petition, so that if there are any mistakes on it they can be corrected. Then the list will be good reading matter.

Does Coffee County want bar rooms or saloons again? Does it? If it votes for dispensaries, there would be all the way from large profits to none, judging from past records. Dispensaries have been far more profitable to the jailers, policemen, lawyers and the like than to any one else. Then bar rooms pay a small license—fifteen hundred dollars divided among state, county and town, after setting aside a big block to pay the overseers of the bar rooms, who are called excise commissioners. The state, county and town would get mighty little money after all the divisions had been made.

Do we people who have been for and against the amendment want to bring whiskey back? Have we decided that it is a good thing? We have not done so. Then why have an election on it? Why raise the question now, and split up the people of the county and cause strife and dissension? Then elections are no cheap matters. First and last the county treasury has to pay near one thousand dollars to hold an election. Do we want the election just to make expense? The man who wants Elba and Enterprise and Brockton to have the right to debauch the young men of the county for a profit and knows he wants it bad enough to vote for it—he should sign the petition for a whiskey election. The man who does not want it should not sign it. Which side are you on?

### English--Kimmey.

Wednesday evening at 8:30 o'clock the Baptist Church was the scene of a pretty marriage, Mr James Oscar English being joined to Miss Clyde Kimmey. The church was tastefully decorated with smilax, pot plants and cut flowers.

Mrs. Robert Hutchison was matron of honor; Messers Oates Rowe and Henry Ellis were ushers, and little Misses Jeanette Garrett and Margaret Lee were flower girls. Mr. Lee English, brother of the groom, was best man, and Messers B. S. Ham, Conrye Mays, Howard Blue and W. C. Braswell were groomsmen; while Misses Essie Rowe, Edna Windham, Fannie Lou Windham and Fannie Meeks were bridesmaids.

The bride was resplendently beautiful in white satin with veil. The matron of honor wore a tasty creation of blue and pink; two of the bridesmaids were gowned in white silk over blue taffeta, and two in white silk over pink taffeta, while the flower girls wore white muslin dresses with blue and pink sashes.

The groom and groomsmen wore the conventional black. The wedding party entered the church to the strains of Mendelsshons wedding march rendered by Mrs. F. P. Rainer at the organ and Mr. Cedric Hickman with cornet. Prior to the arrival of the wedding party, Miss Claudine Rushing rendered two excellent vocal selections. Rev. D. P. Lee solemnized the marriage rites in a very impressive manner. The bridal party left the church to the strains of the wedding march from Lohengrin.

A delightful reception was given by Mrs. Robert Hutchison at her home on Davis street to the wedding party and a few close friends. Delightful refreshments were served. The home was tastefully decorated with flowers and evergreens, and the guests greatly enjoyed the gracious hospitality of Mrs. Hutchison, who is an ideal hostess.

The bride is the charming and accomplished daughter of Mrs. Ida Kimmey, while the groom is one of Elba's sterling young business men. We join their hosts of friends in the wish of a long and happy married life.

Allow me space in your paper for a few lines from Beat 5.

Health of this community is good.

The farmers are having a battle with "General Green."

Rev. C. O. Helms filled his regular appointment at Bluff Springs church Sunday. There is singing there every first Sunday. Mr. J. W. Johnson is chairman.

Mr. Elbert Hemby and wife spent Sunday with the family of Mr. T. J. Hussey near Victoria.

Messers Erie J. Bryan and H. W. Fowler attended an ice cream supper at Mr. L. H. Hudson's Saturday night. They report an enjoyable time.

Dr. Eugene Bragg spent Sunday with his mother.

Miss Arkey Dyess, who is attending summer school as Enterprise, spent Saturday night and Sunday with her parents here.

Mrs. S. A. Fowler, of Enterprise is visiting the family of J. H. Fowler this week. Driver.

### Council Meeting.

The Town Council met in regular session Tuesday night. The regular routine bills were passed upon, and the council adjourned till Thursday morning.

Thursday morning some arrangements were made looking to improved sanitary conditions of the town, and a committee was raised to put them in effect.

The council decided to buy water meters for a part, possibly all of the consumers. It was deemed better to put on meters and let each person pay for the water used, and for this purpose a number of meters will be installed at once, and others as fast as the work can be done. The council adjourned till next Wednesday for that purpose.

The street committee was instructed to have some work done on streets.

### Sells Mill Interest.

Mark Miller has disposed of his large interest in the Miller-Brent Lumber Company, which company owns a large tract of timber land in the counties of Covington, Crenshaw and Coffee, with a saw mill plant at Poley.

Mr. Miller received quite a substantial sum for his stock, the purchasers being Messers Shephard and Fitzgerald, the other shareholders in the corporation. He will retire from active business for a while and will spend the coming year with his family in a long tour over the United States. They passed through Brewton Saturday en route to New Orleans.—Brewton Standard.

Commissioner Nichols tells us of a fine crop of oats made by Mr. Wemorts, of Beat 8. Mr. Nichols says that on ten acres the yield was near 100 bushels to the acre. The oats were planted early, in drills close together, after the land had been broken deep. Nearly two hundred dollars worth of guano, cotton seed, kainit and nitrate of soda was used upon the ten acres, but much of this will remain, and five hundred dollars worth of oats were made on the ten acres, so that Mr. Wemorts is still well ahead on his venture.

## NO TAX RAISES BY COMMISSIONERS COURT.

### County Fathers Decide They Can Get Along Without Raising County's Tax Assessment.

The Commissioners Court has been at work all the week on examination of the tax assessments. Hon. F P. Martin, Special Agent of the Tax Commission, is here this week. He has been before the court, and when talking with the members has suggested that a raise would be a good idea, in fact he urged that the assessments be raised. The County Tax Commissioner also represented the state on the question of raises.

Finally the Court unanimously decided that a raise of assessments could be done without, and proceeded to the work of comparing the assessments.

Mr. Martin, the State's Tax expert, is working on the deed records at Elba and Enterprise with the purpose, it is said of making an estimate as to real estate valuations. It is said that he intim ted to the Court that if the Commissioners did not make raises the State Tax Commission might see fit to make them. It is believed by some that the Tax Commission in its efforts to improve the State's finances will see to it that raises are made all over the state.

### To The Stock Holders Of The Pea River Power Company.

Please take notice that a special meeting of the stock holders is hereby called by the board of Directors to meet at the office of the president of the Company in Elba, Alabama at 12 o'clock M. on the 10th day of July 1911 for the purpose of taking action on whether or not the Stock-holders shall consent to increase the capital stock of said corporation from $50,000 00 to $250,000.00 and to create a ouded indebtedness of $250,000 00 and authorize the directors to utilize such increase in stock, and the issuance of bonds for the development of the property of the Company, to fill vacancy in Board of Directors and to pass upon such other business as may come before said meeting.

### Two Good Road Letters.

FROM MR. PRESTWOOD.

Tennille, R. F. D. No. 2. June 3 1911.

Editor Clipper:—

"In regard to the Co-operative Road Plan, I think that it will prove a good thing in localities where good roads are wanted. I will promise that we people up here in the northeast corner of the county will work over our roads if the county will furnish us tools. We have already been grading some bad sands near us. We have bought three wheel scrapes, and want three more, and a grader and other tools. We have a good road plow.

"We want to grade about two miles this summer between laying by time and gathering time We certainly appreciate the work that we have already done and we hope to be able to do much more than we have done. We have already asked the county for help and will ask again. We think if each beat was furnished with a good wheel scrape and a grader and other tools as may be needed we would soon have good roads, and cheap ones. Hoping that you will be successful in your plans, I will close."

"F. M. Prestwood."

FROM MR. CHAPMAN.

Troy Ala., Route 10.

Editor Clipper:—

Will write a few lines in regard to good road work. That is a good plan. I have been talking some time that if the commissioners would furnish the proper tools that I believed that the people would do the work. That is if suitable machinery and tools be furnished each beat in the county. I live in Beat 15, near the Pike county line, and see the good it does in helping my team to carry a load to Troy and back. I do not see why every one should not take up this proposition.

I saw your plan in a sample copy of The Clipper and was so much interested in it, that I had to write you my ideas about it. My hat goes up high for good roads in Coffee county.

A. M. Chapman.

### Pink, Route 1.

Times are seemingly good now; the farmers of this community have on their smiles in thanks for the good rain on last Wednesday night although lots of corn and cotton was destroyed by falling timber.

Mr. Joe Floyd is still living—though the chance for his recovery is bad.

Mrs. M. L. Carnley is on the sick list, though not serious.

Miss Missouri Grimes is visiting her sister near Glenwood.

Mr. Cooper, an old soldier, is visiting W. O. Carnley this week. Mr. Cooper was wounded on July 23rd, 1864, at Peachtree Creek while on a charge under command of General Hood, and was captured and carried to Chicago, where he stayed six years until he was able to return to his home near Atlanta, Ga.

Corn looks promising now and cotton is growing some.

Some farmers are laying by their corn and are applying nitrate of soda and guano.

The oat crop was fine in this community this year.

Misses Jessie and Etta Page are visiting at Samson and other places.

The patrons of Alberton school are rushing their work in order to commence school.

Farmer.

### Grave Yard Working.

To all concerned: We will meet at 8 o'clock on Thursday before the 1st Sunday in July at Bethlehem church, to clean off the grave yard. Everybody come and help. Respectfully,

Entered as second-class matter July 18, 1905 at the postoffice at Elba, Ala., under the act of Congress of March 3, 1875.

ELBA, ALA., JUNE 9, 1911.

We Coffee County people can raise enough rows among ourselves without having a man from Samson and Russia to come and show us how to raise others.

Dr. C. A. Cary, of Auburn, state veterinarian, has just issued his annual report, in which he advocates a packing house to furnish the state with meat.

There are about 90 entries in the boys' corn contest club in Etowah county, which was formed a few weeks ago. Each boy in the contest will raise one acre, and the corn will be judged in the fall.—Ex.

A thousand or more of the best men in Coffee county who voted hard against the amendment will vote just as hard against whiskey coming back in Coffee's towns. The people of Coffee county are against whiskey.

The farm demonstrators, who have been at work in most of the counties of Alabama for the past two years, have increased acreage production from 30 to 60 per cent and have opened the way for a new era of prosperity in the state.—Ex.

About one Saturday in twenty the marshal in Elba arrests a man from the country for being drunk on tiger or mail order whiskey. Back in the old dispensary days three, five and sometimes eight on a Saturday was not uncommon, and the marshal thought it a dull day when he did not get one to three. Do you think it a good plan to put it back like it used to be?

Nearly two hundred dollars in come from drunk and disorderly cases in Mayor's Court in Elba in one month in 1905, nearly all of it from farmers who came to town with no desire to do anything wrong, but who found two saloons running here to encourage them to get drunk. The saloons were running by permission of the people of the county and the town. Do we want saloons again?

**Granulated Eye Lids**

Can be cured without cauterizing or scarifying by the use of Sutherlund's Eagle Eye Salve. We guarantee it, 25c a box everywhere.

**No Danger.**

In taking Dr. Bell's Pine-Tar-Honey for colds and coughs. It contains no habit producing drug. Look for the bell on the bottle

## Three New County Officers

If Mr. Charles Rubenstein's petition gets enough names on it, and then if the county votes for whiskey, Coffee will have three new county officers, called Excise Commissioners, who will, under the Smith bill passed by the last legislature, have the duty to say who shall have the right to sell whiskey, and boss the business generally. The number of saloons allowed is very small, one to each thousand people in a town, so the demand for the right to run saloons will be considerable. Good pay is given the excise commissioners, like all the new jobs created by the last legislature

On most of the officers created by the legislature the people have no say-so. It is beyond their reach. But the people of Coffee county can cut off these three officers. The way to do it is to keep liquor from being voted back into Coffee and then the Governor under the law cannot appoint the commissioners.

**Wins Fight For Life.**

It was a long and bloody battle for life that was waged by James B Mershon, of Newark, N. J., of which he writes: "I had lost much blood from lung hemorrhages, and was very weak and run down. For eight months I was unable to work. Death seemed close on my heels, when I began, three weeks ago, to use Dr. King's New Discovery. But it has helped me greatly. It is doing all that you claim." For weak, sore lungs, obstinate coughs, stubborn colds, hoarseness, lagrippe, asthma, hay-fever or any throat or lung trouble its supreme. 50c & $1.00. Trial bottle free. Guaranteed by Harp Drug Co.

If you are in favor of more officers, sign Charles Rubenstein's petition for whiskey election. If saloons or dispensaries come back into Coffee county there will be three new officers—called Excise Commissioners, who will get nice pay. The man who thinks he can get the job dead sure ought to help Rubenstein. But first get the promise straight from the Governor, before you waste any time riding. Then work hard. Those of us who wont get the jobs and who think we dont need any new offices can leave off helping Mr. Rubenstein, and advise him to carry round a petition in Russia.

**Dont Experiment with A Cough**

When Dr. Bell's Pine-Tar-Honey has been used by millions of people for sixteen years with a steady increasing demand. Look for the bell on the bottle.

The continued progress of the farmers of Alabama is indicated by the records of the Southern Bell Telephone Company for the month of April. During the month 372 farmers in the state installed telephones in their homes and connected their lines with the Bell system. Since January 1, 1,148 farmers in Alabama have taken telephone service.—Ex.

The work originated and organized by the late Dr. Knapp about five years ago is just at its beginning. Already there are 200,000 farms scattered over the southern states on which experiments are being made by men and boys as to the new ways of corn culture, and each of these is a school for the community where it lies. The government has 550 traveling agents, who supervise the work, and each of these has a large number of demonstrators or teachers, who visit the farmers every week or so and instruct them just how to go about raising the crop. Where possible they have these experimental plantations set out close to the road, so that people can see the results as they pass by

They have organized farm clubs in several thousand communities and have caused the institution of hundreds of county fairs in the interest of improved agriculture.

One of the most important features of this revolution is the work being done by the boys. At the present time the government has on its rolls 80,000 southern boys, each of whom is now cultivating one acre of corn under government directions. These boys are in 700 or 800 different counties, covering all the states of the south.—Ex.

## Unexpected Guests

The farmer and his wife were about to sit down to a cold supper when they saw some old friends driving towards the house.

The good wife was equal to the occasion—thanks to her New Perfection Oil Cook-stove.

She had it lit in a moment, and her guests hardly were seated on the porch before a hearty hot meal was ready for the table—sausages and eggs and long rashers of streaky bacon, and rolls just crisped in the oven and fresh coffee—and the hostess herself as cool and neat as if she had not been near the kitchen.

She never could have managed it with an old-fashioned range. The New Perfection is the quickest, most convenient and best cooker on the market.

## LOSES TEST SUIT.

To Compel Banks to Pay Losses Suffered From Bogus Cotton Bills.

A New York dispatch says: Northern cotton brokers have lost their test suit to compel the banks to pay losses the firms suffered through spurious bills of lading issued by Knight, Yancey & Co., the bankrupt southern cotton brokers. The appellate division unanimously affirmed a supreme court decision setting aside a verdict for $39,916 in favor of the cotton exchange firm of Springs & Co., against the Hanover National bank and ordering a new trial.

The courts hold that banks discounting drafts or presenting them for payment do not "guarantee the genuineness of bills of lading attached to them as collateral security."

Springs & Co. paid a draft for the amount sued for. This was collected by the Hanover National bank for Knight, Yancey & Co., with bills of lading attached subsequently found to be fraudulent.

## NATIONAL CAPITAL NOTES.

President Taft has accepted an invitation to visit the Appalachian exposition at Knoxville, Tenn., some time between September 12 and September 20. He will start his western trip, which already promises to extend as far as Utah, by a swing into the south.

Revenue from the corporation tax this year will be greater than previously estimated, according to the latest supplemental estimates. Assessment for the first four months of the present calendar year are more than $28,500,000, which is more than that of the preceding year. Pennsylvania, New York and Illinois continue to lead the list.

President Taft is said to have told Governor Curry, of New Mexico, that he will not veto the bill now before the senate admitting New Mexico and Arizona to statehood. This bill provides that both territories will vote upon amendments to their constitutions prior to the issuance of a proclamation by the president admitting them to the Union.

Ambassador Hill at Berlin cabled the state department that the German government would be pleased to accept the replica of the Von Steuben statue at the hands of Representative Barthold, of Missouri.

## The Corn Crop of The South.

The corn crop of the south in 1910 was one-third of that of the whole country. It was nearly 1,000,000,000 bushels, and at the the low price of fifty cents a bushel it was worth $500,000,000. It exceeded the output of all the gold mines of the world for that year, and not counting the value of the fodder was more than half the value of the cotton crop.

## MAJORITY OF 829.

Mobile Votes for Commission Form of Government.

By a majority of 829 out of a total vote of 3,612 the city of Mobile adopted the commission form of government. The campaign, which has been carried on for the past three weeks, has been one of the most warmly contested of any in the history of the city, and toward the last aroused much bitterness.

It was a sharply drawn contest between the political machine which has ruled the city for years, and the business, professional and working men of the city, and a feature was the direct interest taken by the most prominent men, many of whom acted as watchers at the polling places

With two exceptions, every ward gave a substantial majority in favor of the commission form of government, and in the two wards that were carried by the machine the majorities were light.

## COST OF GEORGIA AUTOS.

Records Show That $1,500,000 Worth of Cars Are Bought Every Month.

Georgia is investing an average of $62,500 each day in automobiles, more than one and a half million dollars each month. This is shown by the registration books in the office of Philip Cook, secretary of state. Up until June 1, $12,900,000 had been registered, and each day brings an average registration of thirty-five new machines, averaging in value $1,500 each

The number 8727 was issued Tuesday, bringing the total value of machines registered to $13,090,500. All of these machines are not coming from the cities either. Mr. Cook says that fully half of them are registered from the small towns, and many from the country, showing that numbers of farmers now own machines

## DEATH TO BOLL WEEVIL.

Torrid Weather Puts Pest Out of Business on Louisiana Farms.

The torrid weather of the past week has been effective in putting the dreaded boll weevil out of business in sections of Louisiana

The tests conducted by the delta boll weevil laboratory, under the direction of G. D Smith, of the United States bureau of entomology, indicates that the bug has sustained its most serious setback since its invasion of that territory.

Of the weevils placed in hibernating cages last fall ½ of 1 per cent. only have emerged, against 1½ per cent. last season, showing that the per cent. surviving is considerably smaller.

**With Tears in His Eyes, Legislator Promised to Make a Clean Breast of the Alleged Boodling Business in the State of Ohio.**

Representative Owen J. Evans, of Stark county, charged with soliciting a bribe as a member of the legislature, pleaded guilty to the crime before Judge Kinkead, in the criminal court at Columbus, Ohio, and, in view of his agreeing to go before the grand jury and turn state's evidence in the probe into alleged legislative grafting still being conducted by that body, was let off with the minimum punishment, a fine of $500.

Evans went immediately before the grand jury and will tell all he knows concerning alleged boodling in the legislature. He promised the court to make a clean breast and, with tears streaming down his face, the legislator asked for the clemency of the court.

The grand jury has meantime returned eight new indictments, and these, it is understood, are in relation to the legislative bribery probe.

Evans' plea of guilt was made on the recommendation of his counsel, Clark & Addison, and these lawyers made it in open court, the sensational testimony that a large slush fund had been put up for Evans' defense, but they refused to make a defense on perjured testimony.

Evans was under three indictments in all. The one to which he pleaded guilty was for soliciting from L. F. Miller, on April 18, a bribe of $100 for using his influence as a member of the legislature in furthering a bill regulating the business of loaning money on the salaries of employes. The other indictment against him, it is understood, will be quashed or nolled.

## SEA SERPENT IS SEEN.

**Story is Told by Passengers on the Steamer Celtic.**

The passengers and crew of the White Star Line steamship Celtic brought with them to New York a revival of the sea serpent tales of other years. They reported having passed a formidable looking creature which was going at high speed in pursuit of an school of young whales. The monster, they said, had wings, although it appeared to be an aquatic animal, and were frequently ten feet or more from the water.

The whales and pursuer faded from sight within a few minutes.

# GUNS NOW TRAINED ON STEEL TRUST

## It Is SAID Administration Will Take Action.

## PROSECUTION CONTEMPLATED

**Report Current in Washington is That Steel Trust May Meet Same Fate as Befell Standard Oil and Tobacco Monopolies.**

Criminal and civil actions against the steel trust and its officials are to be brought, by the administration, according to a well-founded report current in Washington.

President Taft and Attorney General Wickersham held an extended conference over the matter. While nothing of interest was given out, the report that the prosecution would follow was not denied.

**T. C. and I. Deal Figures.**

The department of justice has obtained its own records in the absorption of the Tennessee Coal and Iron company by the United States Steel corporation, and, with evidence to be submitted by the bureau of corporations of the department of commerce and labor, Attorney General Wickersham is soon to begin legal action to dissolve the steel trust, and this will be followed by criminal actions against the members of the trust.

President Taft and the attorney general intend, it is believed, to go back of the "O. K." put on the absorption of the Tennessee company by the United States Steel corporation by former President Roosevelt.

**Astonishment is Expressed.**

Astonishment was expressed in official circles when it became known that the administration was contemplating prosecution. It was learned that Chairman Stanley, of the special house committee investigating the trust, conferred with President Taft and Attorney General Wickersham. Mr. Stanley is said to have presented evidence to the attorney general and to the president as to violations of the Sherman antitrust law by the United States Steel corporation which has not yet been made public.

Herbert Knox Smith, commissioner of corporations, who has been working for more than two years on the operation of the steel trust, has also placed evidence in the hands of the attorney general, it is said, to make sure that the trust will meet the same fate as befell the Standard Oil and the tobacco monopolies.

## A TRIO OF TRAGEDIES.

**Three Southern States Add to Chapter of Casualties.**

With the unexpected declaration to his bride of two weeks that she did not love him as much as she did when they were married, William P. Ewart, 21 years old, seized a pistol as he returned from church at Charlotte, N. C., and put a bullet through his brain, dying instantly.

The tragedy occurred at the cottage of the young couple in Severisville, a suburb, and, according to the widow, was apparently without premeditation or cause.

Thinking her husband's remark a jest, the wife, it is said, made a flippant reply, and the rash act followed almost as an echo of her words. Both were popular, and the tragedy created a profound sensation.

**His Head Torn Off.**

Daniel P. Wrinkle, aged 29 years, a conductor on an Oak street car of the Chattanooga Electric railway, had his head knocked off while passing across the McCallie avenue viaduct.

The car was loaded, and women and children went frantic with excitement at sight of the headless body of the conductor.

While the car was running rapidly across the viaduct, Wrinkle attempted to pass along the running board.

A passenger stood on the board, and just as Wrinkle swung around this passenger his head came in contact with a heavy girder. The conductor was decapitated as by a guillotine.

**Dog Solves Mystery.**

That wife temporarily insane she wandered away from home, subsisted for probably a week upon twigs and the bark of trees and died of hunger and thirst, is the solution of the disappearance, two weeks ago, of Mrs. J. M. Skelton, wife of a prominent farmer of Scottsboro, Ala. The body has been found.

All human agencies having been exhausted in a search which continued unceasingly for more than ten days, it was left to a little mongrel dog to locate the remains, and by his frantic, almost human, appeals, to lead Tom Gentle, his master, to the spot.

## BANKS GET $2,000,000.

**The Alliance Coal Company Is Sold For Underwriters.**

The Chicago banks which underwrote the "Walsh debt" at the time of the settlement of the affairs of John R. Walsh, the convicted banker, have recovered another installment of their money in the shape of $5,000,000, the proceeds of the sale of the Alliance Coal company.

The sale was to the Monon Coal company, which is affiliated with the railroad of that name, and represents 20,000 acres of coal lands in Sullivan, Clay, Green and Vigo counties, in Indiana.

# MORE BLOOD SHED IN TROUBLED MEXICO

## In Spite of Peace Proclamation Riot Occurs.

## 100 PERSONS REPORTED DEAD

**Police Fire on Rioters at the City of Leon, With the Result That as Many as a Hundred Persons Are Reported to Have Been Slain.**

A dispatch from Guanajato, Mex., says: One hundred residents of Leon are dead or wounded as the result of a riot in that city, according to telephone messages received at that place.

Navarro, with forty of his men, entered the place to await the coming of Madero. The leader went to the Zocalo, and while making a speech there, a mob formed and attacked the jail with the object of releasing the prisoners. The police fired on the rioters. Navarro rushed his men to the defense of the local authorities, who mistook them for a part of the mob, and fired. Notwithstanding this, he gave orders to continue in the assistance of suppressing the mob, but order was not restored until scores had been injured and many killed.

## FOR LAW REFORM.

**Initial Step Taken by U. S. Supreme Court Justice White.**

The initial step in the first big reform inaugurated by Chief Justice White, of the supreme court of the United States, since his elevation to that office became public when announcement was made that the chief justice had appointed a committee to change and revise the rules of practice in the equity courts of the United States.

The committee is composed of Justices Lurton and Van DeVanter, and Chief Justice White, ex-officio. It will report to the full court, probably in the fall, such changes and revisions in the present rules. For years the rules have been pronounced in many quarters as antiquated and often working injustice and hardship. The most general outcry against them has been they encourage delay in litigation and high costs.

Not only have clients complained of the delays and costs, but lawyers themselves fret at the insurmountable delays. Another objection has been that the rules were unnecessarily complicated.

President Taft is known to be interested in the reform. It is regarded as striking at the most objectionable set of rules in force by direction of the supreme court. The present rules were promulgated in 1842, and except for a few changes to individual rules, have remained unamended to the present day.

It is understood that the committee desires suggestions from members of the bar and the bar associations as to what changes should be made.

## LUMBER TRUST PROBE.

**Special Federal Grand Jury Begins an Investigation.**

A special federal grand jury at Chicago began its investigation into the lumber trust at the federal court building. More than 200 lumber men have been subpenaed to give testimony as to whether the alleged combine has conspired to fix prices and to blacklist and boycott certain concerns which sell direct to the consumer eliminating the retailer.

A significant phase of the inquiry is the summoning of employes of the Weyerhaeuser-Hines interests to testify. This combination, the government asserts, acts as a barometer of the lumber trade in the country.

Individual criminal indictments will be sought against members of the companies.

## WAR CLOUD GATHERS.

**Trouble Seems Likely in Republic of Nicaragua.**

Three days after the explosion which wrecked the La Loma, in which many soldiers were killed, the natives are expecting an invasion under the leadership of Dr. Julian Irias, former delegate on the Atlantic coast side to Madrid, and also from Costa Rica.

Warnings have been sent everywhere over the republic to recruit the army as rapidly as possible. The authorities are counting on the support of the Atlantic Coast side of the country. The situation is under control, and tranquility prevails. Official advices from Managua indicate that the dynamiting of the barracks was done by former revolutionists.

## MOROCCO IS BARRED.

**British Government Won't Receive the Sultan's Ambassador.**

The British government's invitation to Morocco to send a special ambassador to the coronation of King George has been withdrawn, it is said, and the foreign office has notified Elmokri, who had been designated to represent Sultan Mulai Hafid, that he would not be received.

This action on the part of the British government was brought about by the cruelty with which the sultan's troops treated women and children during the recent raid from Fez. The soldiers conscripted many women and girls in the neighboring villages and sold them on the streets of Fez.

**FREE REMEDY HELPS CHILDREN**

Many a mother has learned of a way of avoiding sickness in her family, especially among the children, by the use of a free sample bottle of the famous laxative, Dr. Caldwell's Syrup Pepsin. This offer of the doctor's to send a free sample bottle has been responded to by thousands of women in all parts of America.

Dr. Caldwell's Syrup Pepsin is a truly wonderful laxative and especially adapted to the needs of babies and children because it is pleasant to taste and no child will refuse it. Then, it is mild and never gripes. It is all that a child's remedy should be, though it is a good laxative for the whole family because it is effective at all ages. It is not dynamic like salts, pills and powerful cathartics, which should not be given to children under any circumstances.

Nine times out of ten when a child complains and you don't know exactly what is the matter with it, it needs a laxative—its bowels are constipated. Syrup Pepsin will correct the trouble, tone up the child and soon it will be well again—wonderful results have been secured with Syrup Pepsin over night.

You can buy it of any druggist at fifty cents or a dollar a bottle, the latter being the family size, but you are invited to make a test of it first at the doctor's expense. Send him your address today and he will send you a free sample bottle direct to your home. Then when satisfied buy it of your favorite druggist.

For the free sample address him. Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

## Judge Blair Endorses.

Opelika News.

Judge Blair, of Portsmouth, Ohio, it was, who occupied the bench in West Union County Ohio, during the term of the Court resulting in the conviction of one thousand and six hundred of the qualified voters of that county on the charge of having sold their votes in the last election preceding the holding of the Court.

In an interview Judge Blair says: 'I am in favor of the initiative, referendum and recall. I am firmly convinced that the adoption of these measures of popular government throughout the country will do more, perhaps, than any other one thing to put an end to corruption in politics, and particularly to the buying and selling of votes."

Thousands of the leading men of the country are coming out squarely in favor of the adoption of the initiative, the referendum and the recall as a means of retaining in the hands of the people the control of the government. Every man and every newspaper that is dominated and controlled by the special interests is vehemently opposing these principles. Can the masses doubt for a moment on which side of the question they should take their stand.

## 'Gator Got The Chief's Hound.

It is stated that Chief of Police Rip McBryde, of Troy, lost one of his fine fox hounds down near Panama City, Fla., where a colony of Trojans went some time in recreation.

The story goes that the chief and a party had been out on a nearby island fox hunting. When they called in the pack of hounds, two of the dogs were missing. As the boat left the island the dogs were seen to appear at the edge of the shore. Before the boat could return, one of the dogs was seen to plunge into the water in an effort to swim to the boat. His mistake in doing so is said to have cost his life, as the jaws of a big alligator were seen to appear about the dog, and then both sank beneath the water to be seen no more. The boat returned for the remaining dog.—Troy Messenger.

## Favorable Cotton Crop Report.

Monday's Advertiser contained very full reports from the cotton crop of the state. Generally the crop is reported as doing well. It is generally clean, practically no lice, and the warm weather and small amount of rain has made it very healthy.

Hot one minute, cold the next. That's malaria. Take Pam-ala and rid your system of it.

## Experimenting.

The average farmer believes more in what he sees than he does in what he hears of or reads. He s about that like other people are. As a result many farms in this section are experiment farms. A great many farmers will this year fertilize part of their crops the second time and leave off part of the same field, which will be worked otherwise just the same way. Then some will leave off nitrate of soda on part, and see what effect it will have, and other experiments will be conducted with a view to seeing what effect the different methods have upon the yield. It may take several years to learn exactly what plans of cultivation and fertilizing pay best, but such knowledge is worth getting if it took many years to get it.

## Contract For New Wing at Capitol.

Montgomery, June 10.—The new north wing of the State Capitol will, according to contract awarded yesterday by the Building Commission, be completed by January 1, 1912, at a cost of $73,278.38.

It was estimated that the cost would not exceed $65,000, but R. E. L. Majors, of Troy, who secured the contract, was the lowest bidder. Ten bids ranged from $73,278.38 to $119,000, although the total appropriations by the Legislature for the wing and other Capitol improvements amounted to only $100,000.

## From Beat 15.

The health of the people of this community is generally good.

Some of our boys have not "stacked arms" yet. They are still battling with "General Green."

Mr. J. W. Wise is putting in new machinery and rebuilding his upper and lower mills.

Mr. A. T. Little has returned from near Andalusia, accompanied by his mother, who has been visiting relatives and friends in that section.

Elder J. B. Farmer preached at Shady Grove Saturday and Sunday. He had a large congregation to hear him. Several visitors from a distance were present, among these being Mr. and Mrs. J. M. Hurd, of Opp, formerly members of this Church; Mr. S. T. Dean, of Pink; Mr. J. T. Wesley, a brother of Mrs. F. M. Dean, of Enterprise; and Mr. and Mrs. W. H. Moody, of Elba.

A fine Sacred Harp Singing was held, the leaders being Monroe Smith, W. H. Moody, S. T. Dean, J. J. Johnson, H. W. Dean, F. M. Dean and J. S. J. Sanders.

Elder Farmer will again preach at Shady Grove the second Sabbath and Saturday before in July. Come hear ye him.

There will also be Sacred Harp singing before preaching.

More Hope.

It is reported that the federal government will establish an experimental hog farm at Columbia in Houston county, principally to try out the value of peanuts as a hog feed. Many Coffee county farmers have already thried peanuts long enough to know there is nothing better for making pork at a low cost.

News comes from Louisiana and Mississippi that the extremely hot and dry weather has killed out a crop of the boll weevils. It may be true, but the bug that can travel through a Texas desert in mid summer would hardly suffer sun stroke in Mississippi.

The first boll weevil of this season was reported from Bay Minette, May 31st.

## Roeton Items.

The weather is very pleasant now and the health of the people is very good except a few chills and fevers.

Mr. and Mrs. J. M. Wilson, accompanied by their daughters Beulah Belle and Mattie Pearl, visited relatives near Pronto, Saturday.

Master George Prestwood attended commencement at Brundidge this week.

Mr. and Mrs Oscar Hilburn and children are visiting Mrs. L. E. McKinnon.

Mr. H L. Seay visited Roeton Monday.

Mr. and Mas. J. M. Whittington and sons, Alto and Fletcher, isited relatives at Tarentun Sunday.

Miss Bammah Galloway entertained a number of friends last Sunday, among them being Misses Fannse and Pearl Allen, Mollie and Hennie Avant, Clarie Huff, Nellie Wilson, Annie Mae Tillman, and Messers Alto Johnson, Coda Tillman, Cleave Seay, Frank Wilson, Will and Wilker Avant, Joe Lewis and Joe Bragg. They all report a very pleasant time.

Miss Lois Strickland visited Mis. C. A. Whittenton Saturday.

Misses Estelle and Clare Prestwood were the guests of Miss Nellie Wilson last Sunday.

Mr. Cleave Seay visited friends on Tenuille, route 3, Sunday afternoon.

Mr. S. M. Wilson will soon be ready to pick cotton. He has found some cotton bolls in his field.

Girlie.

The first bale of 1911 cotton was sold in Houston, Texas, last week. This is said to be eleven days earlier than any previous "first bale."

Gov. O'Neal has announced that there will be no "extra session" of the legislature this year, and possibly not during his term of office.

## SEVEN CONVICTIONS.

### Joe Thames Has Busy Day in Justice Court.

Yesterday Justice T. D. Hendrick tried Joe Thames on no less than seven charges of violation of the prohibition laws. The court was held at the usual place of Justice Hendrick's courts at Asbury Chuch, in Beat 7. In all the cases Thames was fined one hundred dollars, and in two of them the court imposed imprisonment sentences of six months each. Appeals were taken to the circuit court in all the cases.

## ADVERTISING ERROR.

### Crossett Shoes Are $4.00 the World Over.

In Friday's issue of The Clipper in the advertisement of the New York Commission House was an error about the price of the world famous Crossett shoes. These shoes sell everywhere for one price—four dollars. In them is more of value than in any other four dollar shoe. Then there is style and comfort, which added to their wearing qualities make them without a peer in their field.

The New York Commission House has the exclusive sale of this fine line of shoes. It handles them as it does all along the line, because nothing else so good can be had for the price. This is written for the purpose of correcting the error made in last Friday's paper. So please bear in mind that the universal price of the Crossett is four dollars per pair.

## Gov. Comer's Letter.

In Sunday's Advertiser appeared a very interesting letter from Hon. B. B. Comer, ex-governor of Alabama, in reply to a letter written some time ago by Judge Thos. G. Jones, judge of the Federal Court sor the Middle and Northern districts of Alabama.

As is the case with all controversial letters written by bright men, the letter is very readable. It touches upon environment, political history, and the like, and takes the hide in spots. It is an intensely interesting piece of reading matter, but like Judge Jones, Gov. Comer is so well informed that he takes lots of space when he gets warmed up to his subject, so that the Clipper cannot print the letter, for it would fill about five pages of the paper, which, as you know, has only four.

## Wheat In South Alabama.

Pine Belt News.

Farmers in the neighborhood of Deer Range, Conecuh county, seventeen miles northwest of Brewton, are preparing for the boll weevil. S. M. Long, one of the most successful farmers in that section, has been exhibiting some fine specimens of wheat, sown as late as February of this year, which he harvested about ten days ago. He says he raised fifty bushels on two and one half acres of ordinary pine land, and that several of his neighbors have grown wheat this season. The acreage will be increased next year.

## Preacher Arms Dead.

Pine Belt News.

Rev. E. B. Arms, one of the best known Universalist ministers in th South, died at his home in Garland, Ala., and was laid to rest at that place on Friday, May 19th. He was well advanced in years, and a prominent Mason, the beautiful burial ceremony of that fraternity being observed at the grave. Hon. J. B. O'Bannon, of this city, attended the funeral.

## CROWNING OF KING.

**Coronation Ceremonies Have Been Practically Settled.**

A London dispatch says: The multitudinous details connected with the coronation of King George and Queen Mary at Westminster Abbey, June 22, practically have been settled under the supervision of the earl marshal, the Duke of Norfolk, and his advisers.

The actual crowning of both the king and the queen will be performed by the Archbishop of Canterbury, while the Archbishop of York will preach the coronation sermon.

King George, with his consort, on entering the abbey, will proceed immediately to the chairs of state on the south side of the altar.

The presentation of the king to the people for recognition, a survival of the ancient Teutonic usage of popular election, will be performed by the Archbishop of Canterbury. Then his majesty will proceed to the four corners of the abbey, receiving the acclamations of the congregation.

Next will come the litany, sung by two bishops, after which the archbishop will begin the communion service, followed by the sermon. On its conclusion, the king, having already made the declaration, will take the oath, kneeling at the altar, and sign it.

Then will follow the anointing, after which the king will be solemnly blessed.

## $3,000,000 ON GA. ROADS.

**Sum Spent During 1910—All States Active in Road Making.**

Activity in road making all over the country for which great sums have been expended last year is summed up in a condensation of state highway reports given out at Albany, N. Y.

New York spent about $5,000,000 and plans to spend nearer $9,000,000 the coming year. New Jersey built at a cost of more than $825,000 with contracts of about $670,000 not yet completed. Repairs and maintenance amounted to more than $1,400,000. Pennsylvania spent considerably more than $1,000,000 on roads, with contracts of $700,000 not completed. Ohio had construction and repair bills of nearly $500,000, with repair bills of nearly $500,000, with work aggregating $620,000 still to be finished.

The total expenditures of other states were as follows:

Arizona, $200,000.
California, besides completing three or four state roads, voted $18,000,000 for a state highway system.
Georgia, $2,000,000.
Maryland, $1,477,000.
Missouri, $100,000.
North Carolina, $800,000.
Texas, $7,000,000 with estimates for about $25,000,000 in 1911.
Virginia, $85,000.
West Virginia, $1,150,000.

## BURNED IN HIS HOME.

**Aged Man Meets Tragic Fate Near Savannah, Ga.**

Alone in his home and unable to protect himself on account of afflictions, Rias Sawyer, 68 years old, was burned to death in a fire which completely destroyed his home five miles from Savannah, Ga., on the Augusta road. The old man was a paralytic, having suffered a stroke of paralysis several months ago, from which he never fully recovered. It is believed he was attempting to move a lighted lamp from a table, and in doing so overturned it, setting fire to the room.

The neighbors ran to his assistance, attracted by the blazing house, but the fire had made such headway that they were unable to enter in time to rescue the old man. Sawyer lived in the house alone.

## MORE MONEY SAVED.

**Commissioners Lop Off $5,000 From Birmingham, Ala., Payroll.**

Birmingham's new commissioners met and lopped off $5,000 more from the city's annual pay rolls. This action brings the total reductions within a week to nearly $80,000, which would be four per cent. interest on a $2,000,000 bond issue.

The ax fell this time on the police and judicial departments.

Enthusiastic citizens, some of whom were formerly opposed to the change of the form of city government, called on the commission to indorse its actions and policies as outlined.

Six persons at Salt Lake City, Utah, were drowned in the Salt Lake when the launch Galilee, bearing sixteen persons attending a party given in honor of the approaching marriage of Vera Brown and Edward P. Hollea capsized. The bride and bridegroom were among the drowned. They sank clasped in each other's arms. A party of young men in a sailboat rescued the other ten.

Judgment has been satisfied in the divorce decision for Mrs. Eva Swarthout Wheeler against her husband, Prof. H. L. Wheeler, in which alimony of $100,000 was awarded by the courts according to papers filed at New Haven, Conn. The amount of the actual settlement is not given, but the understanding is that a compromise was reached for about $75,000.
